

User Manual

Starting the game:

Click on the “” icon at the top right of the app. You have the option to play against ¹⁾ Another player via hotseat or ²⁾ The Checkerz bot.

Rules:

Checkerz rules are simple, each color can move one piece forward one square in either diagonal direction. If an opponent's piece should be in this position instead, the player may jump over this piece if the position beyond the opponent is empty. Every piece that is jumped over in this way is considered captured. A player wins the game when every piece of the opposition is captured.

Crowning:

When either player's' piece reaches the opposite side of the board, it is crowned and the icon is replaced with the one above. This player's turn then ends. Crowned units may also move and jump backwards and forwards.
